### ADDITIONAL EXPLANATION OF FEES AND COSTS

The following are the various fees and costs that may be charged to your account.

#### Administration fees and costs

Active Super charges an administration fee in two ways:

1. We charge \$1.27 per week (\$66.04 p.a.). This is deducted directly from your account balance; and
2. We charge a fee of 0.25% p.a. that is paid from Active Super's assets prior to unit prices being calculated.

The percentage-based administration fee is charged through the unit prices and redeemed on a monthly basis. The balance is then paid to LGSS Pty Ltd. Any excess funds within the Trustee bank account are transferred to the Administration Reserve.

<sup>5</sup> Contributory Retirement Scheme members with a Transition to Retirement will pay 0.25% administration fees after age 65

The Administration Reserve is utilised to fund strategic projects within Active Super to drive better outcomes for members.

### Transaction costs

Transaction costs include explicit transaction costs such as brokerage, settlement costs or stamp duty, as well as buy sell spreads charged by our investment managers or in underlying investment vehicles. Currently, buy-sell spreads do not apply.

Transaction costs in respect of all investment options are an estimate based on the explicit transaction costs incurred by the Fund and underlying investment vehicles during the year ended 30 June 2021. These estimates are based on information provided by our investment managers and custodian and reflect actual amounts for the year ended 30 June 2021 where available and some estimated components.

The actual amount of transaction costs that you will incur in the current and subsequent financial year(s) depends on the investment option(s) you are invested in.

### Investment fees and costs

Investment fees are those fees that relate to the investment of the assets of Active Super. These fees are incurred directly by the Trustee for the exercise of care and expertise in the investment of those assets and may include management fees, transactional and operational costs, performance related fees and custody fees.

Investment fees are paid from Active Super's assets prior to unit prices being calculated. Based on information provided by the investment managers we invest with, estimated transaction costs incurred in the Fund's underlying investments range from 0.18% p.a. to 0.93% pa as shown in the table below.

The fees and costs for each investment option are shown below.

The fees shown above are provided as indicative costs only and include reasonable estimates and are subject to change.

## Performance fees

The Trustee has entered into performance fee agreements with certain investment managers, which are closely monitored.

Performance fees are payable when investment returns exceed an investment manager's benchmark and form part of the investment fee. Generally, these fees are calculated as a percentage of the investment returns that exceed an agreed level of return. If the investment returns are below each manager's benchmark, no performance fee is payable until the underperformance has been made up.

Performance fees are included as part of the investment fees and costs, depending on the type of underlying investment. The table below includes performance fees for each option averaged over the five financial years to 30 June 2021. The Performance fees range from 0.09% to 0.29% as shown in the table below.

Table 1: Estimated Performance fees per investment option as at 30 June 2021.

| INVESTMENT OPTION     | PERFORMANCE FEES (%) |
|-----------------------|----------------------|
| High Growth           | 0.29%                |
| Balanced              | 0.24%                |
| Conservative Balanced | 0.23%                |
| Conservative          | 0.19%                |
| Managed Cash          | 0.09%                |

## Buy-sell spread

A buy-sell spread is the costs associated with investing in, switching between or withdrawing from the investment options.

All costs associated with any of these transactions (including brokerage and commission) are taken into account at the time of valuation for the investment option. Currently Active Super does not apply a buy-sell spread for any of these transactions; however, buy-sell spreads are charged by certain investment funds that the Fund invests with.

## Payments to authorised representatives

Authorised representatives of Active Super receive remuneration by means of salary only. No commission is paid by Active Super or members. You will only be charged an advice fee if you agree to receive personal financial advice from one of our financial planners, and the fees will be discussed and agreed with you before providing you with the advice.

### **Taxation rebate**

Active Super receives a taxation deduction on fees and costs which is passed back to members in the form of reduced contributions tax. For more information on taxation, please read the *Taxation* fact sheet.

### **Charges paid to investment managers**

Investment management fees and other charges may be paid by the Trustee out of the Fund's assets.

All investment management fees and charges are deducted from the gross investment returns prior to the net investment return for each strategy being declared.

### **Changes to fees and costs**

Active Super operates on a profit-to-members basis. The Trustee can change the amount of fees which apply without your consent, but we will provide you with at least 30 days' notice as required by law if there is a material increase in the fees we charge you.
