ACTIVE SUPER ACCOUNT-BASED PENSION PLAN OVERVIEW

The Active Super Account-Based Pension Plan offers an effective way of receiving your superannuation entitlements as an income stream.

An account-based pension can provide a simple, flexible and convenient way for you to convert your accumulated superannuation into a tax-effective income – your own pension. An account-based pension can also be taken as a non-commutable⁶ Transition to Retirement (TTR) pension which allows members of Active Super who are at or over their preservation age and still employed to access a pension. The major difference between an account-based pension and a TTR pension is that there are stricter rules relating to when you can commute or withdraw either some or all of your TTR pension as a lump sum, and TTR pension earnings are taxed the same as earnings in the accumulation phase. If you require further information regarding the TTR pension option please contact your financial planner.

The Active Super Account-Based Pension Plan allows you to control your retirement income by simply pre-selecting how often and how much you wish to receive as a pension, within prescribed minimum limits.

An account-based pension may not be the most tax-effective pension or investment for you. For further information refer to page 19 and seek advice from your financial planner.

Generally, once an Active Super Account-Based Pension Plan is established for you, your pension income will be paid from this account. Your contribution will be invested in your choice of one or more of the available investment options.

You start your Active Super Account-Based Pension Plan with one lump sum payment (being a superannuation lump sum) from:

- superannuation or rollover benefits payable to you from another Active Super product, or another superannuation fund, as an unrestricted non-preserved benefit⁷,
- a superannuation lump sum if you are electing for a TTR pension, or
- any other superannuation or Retirement Savings Account (RSA) source.

Your Active Super Account-Based Pension Plan is reduced by pension payments, taxes (in limited circumstances where applicable) and fees and other costs. The account balance may also be reduced by negative investment returns.

In addition to regular pension payments, you can have all or part of your account balance paid as a lump sum (except for TTR pensions) subject to conditions, please refer to page 8 for more information.

The amount of pension you can draw from your account in a financial year is subject to minimum limits prescribed by federal legislation. Please note that the TTR pension has a maximum annual drawdown limit of 10% of the account balance.

6. 'Non-commutable' means that it cannot be converted back into a lump sum (except in limited circumstances). Please refer to page 8 for further details.

7. These are generally benefits for which the member has previously met a condition of release and was entitled to be paid but has voluntarily decided to keep within the superannuation system. There are no restrictions for paying these superannuation benefits out to a member at any time on demand, irrespective of age, employment situation or financial position, providing the superannuation fund rules allow the payment.

You should refer to the *Pension payments* fact sheet for more information on the current minimum payment levels. The fact sheet is available at activesuper.com.au/PDS or from Member Care on 1300 547 873.

Payments are made until the balance in your account has been completely withdrawn.

The Active Super Account-Based Pension Plan does not provide any death or disablement insurance cover.

An account-based pension may not provide a pension for the rest of your life.

SUMMARY OF FEATURES

The Active Super Account-Based Pension Plan has the following features:

- Investment earnings are generally tax-free while they remain in your account and are only taxed in the hands of the pensioner when paid as taxable income, except in the case of a TTR pension where investment earnings are taxed at 15%.
- The level of the pension may be varied within prescribed limits, unlike pensions which have a fixed or indexed income stream.
- If you are aged 60 or over, your account-based pension income is tax-free, non-assessable, non-exempt income which allows greater flexibility in the management of your financial affairs.
- The balance of your account-based pension, or part thereof, may be commuted⁸, except in limited circumstances. Please see page 8 for commutation/withdrawal options.
- You have a choice of investment options and the flexibility to switch between them, which has the potential to give better performance.
- Any remaining capital invested at the time of your death is passed on to your dependant(s) or legal personal representative.

WHO CAN JOIN?

The Active Super Account-Based Pension Plan is a public offer product, open to anyone who meets the minimum initial contribution level (see page 6) and for whom one of the following applies:

- You have reached your preservation age and permanently retired. If you elect to take a TTR pension at or after reaching your preservation age you do not have to be permanently retired to be paid a TTR pension. Please refer to the table on page 7 for more information on your preservation age.
- Your superannuation lump sum is an unrestricted non-preserved benefit.
- You have ceased employment and are aged 60 or over.
- You are totally and permanently incapacitated or are the recipient of the proceeds of a superannuation death benefit.
- You are an Australian Resident.

8. This is the process of converting a pension or annuity into a lump sum payment. This payment can be paid to the beneficiary or rolled over to another product within the same superannuation fund, or to another superannuation fund.

COOLING OFF

A cooling-off period applies. This means you have 14 days to withdraw your application without incurring any fees or charges if you decide the Active Super Account-Based Pension Plan does not meet your needs. The 14 days begin from the earlier of:

- the date you receive a letter from us confirming the commencement of your membership in the Active Super Account-Based Pension Plan, or
- five days after we accept your application to join the Active Super Account-Based Pension Plan and have received your initial investment, and issued you an interest in the Plan.

A request to withdraw your application during the cooling-off period must be made in writing to the Trustee.

If your request is approved, we will not deduct any fees or charges from the monies paid. The amount repaid is adjusted for any tax paid or payable and any net investment earnings or losses during the period of your membership.

If the Active Super Account-Based Pension is a TTR pension funded by benefits from the Active Super Retirement Scheme, these funds must return to the Active Super Retirement Scheme and they cannot be withdrawn or redirected elsewhere.

ESTABLISHING AN ACTIVE SUPER ACCOUNT-BASED PENSION PLAN

You need a minimum amount of \$25,000 to establish an Active Super Account-Based Pension Plan. This must be sourced from a superannuation lump sum payment. There is a limit of how much super can be transferred 'tax-free' into the retirement phase. The general transfer balance cap is currently \$1.9 million⁹ and it represents the maximum amount 'tax-free' that you can transfer to retirement phase to support your pension. If you breach this cap, there may be consequences including paying additional tax.

If you commence your pension with a balance of less than the general transfer balance cap and it has increased above this amount since commencement, you are not required to do anything.

Once established, it is not possible to top-up an account-based pension account. This means that each additional superannuation lump sum you receive after the initial contribution must be invested in separate account-based pension accounts.

If you are a member of the public offer division of the Active Super Accumulation Scheme, you may consolidate these payments using your Active Super Accumulation Scheme account prior to commencing a pension (depending on the timing of the receipt of each additional superannuation lump sum). It may then be possible to use those additional superannuation lump sum payments to purchase a single Account-Based Pension Plan.

For more information about the Active Super Accumulation Scheme please refer to the Active Super Accumulation Scheme PDS, which is available at activesuper.com.au/PDS or from Member Care on 1300 547 873.

9. Indexation is based on changes in the Consumer Price Index and any change in the cap takes place in increments of \$100,000.

PRESERVATION AGE

Your preservation age is the age at which you are eligible to access your preserved benefits due to retirement.

DATE OF BIRTH	PRESERVATION AGE
Before 1 July 1960	55 years
1 July 1960 – 30 June 1961	56 years
1 July 1961 – 30 June 1962	57 years
1 July 1962 – 30 June 1963	58 years
1 July 1963 – 30 June 1964	59 years
After 30 June 1964	60 years

FAMILY LAW

The restricted and unrestricted non-preserved components can be reduced if there is a benefit split under the *Family Law Act 1975*.

The Family Law provisions are complex and you should seek independent legal and financial advice with respect to your personal situation. Please note that for Family Law purposes, the term 'spouse' refers to the legally married spouse of a member, a de facto spouse or a same sex partner.

PAYMENTS FROM THE ACTIVE SUPER ACCOUNT BASED-PENSION PLAN

You may take your funds in the Active Super Account-Based Pension Plan as:

- an account-based pension,
- a lump sum taken in cash,
- a rollover to another superannuation product, or
- a combination of an account-based pension, lump sum or rollover.

PENSION PAYMENTS

You can choose to have your pension paid twice-monthly, monthly, quarterly, half-yearly or yearly. Your payments will be directly deposited into your nominated bank account.

Active Super withholds pay as you go (PAYG) withholding tax from your pension payments where applicable. The amount of tax deducted may be reduced if you are entitled to the Seniors and Pensioners Tax Offset (SAPTO). For more information, please refer to *Taxation* on page 19, the *Taxation* fact sheet available at activesuper.com.au/PDS and seek advice from your financial planner.

Pension payments will be deducted from your investment option(s) according to your election. You can decide which option(s) your pension payment will be withdrawn from first, then once exhausted your payments will be withdrawn from the next most conservative option or according to your specific instructions.

Please note if no specific election is made your pension will be deducted proportionally across your nominated investment option(s).

You can change the amount or frequency of your pension payments and the investment option that you draw down from in Member Online.

MINIMUM AND MAXIMUM PENSION PAYMENTS

You should refer to the *Pension payments* fact sheet for more information on the current minimum and maximum payment levels. This fact sheet is available at activesuper.com.au/PDS or from Member Care on 1300 547 873.

LUMP SUM WITHDRAWALS (COMMUTATIONS)

If you have an account-based pension, you can request all (or part) of your account to be paid to you as a lump sum.

For lump sum withdrawals, the minimum account balance after a withdrawal is \$2,000 and the minimum withdrawal amount is also \$2,000. If the account balance is less than \$4,000 any withdrawal must be for the entire balance.

If you have more than one investment option, you can nominate the investment option from which a withdrawal is to be deducted. If you do not make a nomination, the withdrawal will be deducted proportionally from your selected investment options.

Applications for lump sum withdrawals are generally paid within five business days of Active Super receiving all of the required documentation using the latest unit price available on the date the payment is made.

Lump sum withdrawals made during the year do not affect the minimum and maximum limits on the pension payments drawn from your account during that year; those limits are determined on your account balance at the start of the financial year. They may affect your minimum and maximum pension payments in future years, due to the reduced account balance.

The tax implications of withdrawing funds from your pension, wholly or partly, may be complex. Please refer to *Taxation* on page 19, the *Taxation* fact sheet available at activesuper.com.au/PDS and seek advice from your financial planner to determine whether or not a withdrawal is an appropriate step for you.

If a withdrawal occurs part way through a financial year, there is a requirement that a minimum pro-rata amount of pension must be made prior to commutation.

For members who have elected to take a Transition to Retirement pension, there are only limited circumstances in which you can make a withdrawal (commutation).

These circumstances are detailed below:

Withdrawal (commutation) options for members who elect a TTR pension

A TTR pension cannot be commuted unless the purpose of the withdrawal is:

- to cash an unrestricted non-preserved benefit,
- to pay a superannuation contribution surcharge,
- to give effect to an entitlement of a non-member spouse under a Family Law payment split, or
- where the pensioner has satisfied a condition of release prior to commutation.

At age 65, a TTR pension account will automatically convert into an account based pension which can be commuted. Specific rules apply for Retirement Scheme TTRs for contributing members (see below).

Withdrawal (commutation) options for members who elect a TTR pension – Rules for Active Super Retirement Scheme members

In addition to the general rules, members from the Active Super Retirement Scheme who commence a TTR pension must also comply with the following:

- Members need to nominate an amount to be used for the TTR pension.
- Members cannot commute an unrestricted non-preserved benefit (except in limited circumstances¹⁰) or roll over any component of their benefit to another superannuation fund while they are still contributory members of the Retirement Scheme.
- Generally a TTR pension can be commuted once the member has met a condition of release.
- Members who meet a condition of release by reaching age 65 may elect to commute from the TTR pension, provided they have also elected to opt out of contributory membership of the Active Super Retirement Scheme.

10. Commutation may occur in order to satisfy a Family Court Order or Superannuation Agreement.

NOMINATING BENEFICIARIES

Did you know that even if you have a Will, your super may not be included in your estate? That's why it's so important to tell us who should receive your super upon your death by making a valid binding death benefit nomination.

WHAT IS A BINDING DEATH BENEFIT NOMINATION?

If you make a valid binding death benefit nomination (BDBN) in favour of your dependant(s) and/or legal personal representative(s), the Trustee must distribute the benefit on your death in accordance with the BDBN provided. However, your binding death benefit nomination must still be valid at the time of your death and when the benefit is paid.

WHO CAN I NOMINATE?

Each person you nominate must be one or more of the following at the time of your death:

- Your spouse;
- Your child or children;
- Any other person who is financially dependant on you;
- Any other person with whom you had an 'interdependency relationship'. Two persons have an interdependency relationship if:
 - they have a close personal relationship; and
 - they live together; and
 - one or each of them provides the other with financial support; and
 - one or each of them provides the other with domestic support and personal care.
 - Two people may have an interdependency relationship if they have a close personal relationship but do not satisfy the other requirements of an interdependency relationship because either or both of them suffers from a disability; or

- Legal personal representative(s). For the purposes of this BDBN, a legal personal representative is taken to be someone who holds grant of probate or letters of administration. If that person has not lodged an application with us within 12 months of your death, the binding nomination will be considered invalid and the Trustee will decide how the benefit is to be distributed.

HOW DO I MAKE A VALID BINDING DEATH BENEFIT NOMINATION?

To make a binding death benefit nomination you should complete the *Binding death benefit nomination* form available from activesuper.com.au/forms or by contacting Member Care on 1300 547 873 and return it to us. There are strict legal requirements for a BDBN to be validly made. For the Trustee to treat your BDBN as valid:

- you must confirm that each person you have nominated is either your dependant or your legal personal representative; and
- the form must state the proportion of the benefit that you wish to pay each nominated beneficiary, and the total allocation must equal 100% of the benefit; and
- the form must be signed and dated by you in the presence of two witnesses who are at least 18 years old and are not nominated as beneficiaries. The witnesses must sign and date their declaration on the same date that you sign the form; and
- the form must be provided, and accepted, by the Trustee prior to your death; and
- the binding death benefit nomination must not have expired.

If you submit a BDBN that we identify to be invalid on its face, we will write to you advising that we are unable to accept it. The legal rules about the eligibility of nominated dependants are complex and eligibility factors can change and vary so we cannot guarantee that each nominee will be eligible to receive payment of your death benefit at the time payment is to be made.

HOW LONG DOES A BINDING NOMINATION LAST?

There are strict legal requirements for a BDBN to be validly made and to remain valid. To remain valid, a BDBN must be confirmed at least every three years using the *Confirmation of existing binding death benefit nomination* form. You can change your nomination at any time using the *Binding death benefit nomination* form. Both forms are available at activesuper.com.au

WHAT HAPPENS IF I DO NOT MAKE A VALID BINDING DEATH BENEFIT NOMINATION?

The Trustee will, at its discretion, pay the benefit to one or more of your dependants or legal personal representative(s). This also applies if you made a binding death benefit nomination which is not valid at the time of your death or at the time the benefit is paid. Benefits paid to your legal personal representative(s) will be paid by way of a lump sum which will form part of your estate to be distributed in accordance with your Will (if you have left one) or otherwise in accordance with the law.

Examples of when a BDBN is invalid include:

- Your BDBN had expired; or
- Your BDBN form was incorrectly signed, or witnessed; or
- Your BDBN form has been altered; or
- The person nominated does not qualify as your dependant at the date of your death.

FEES AND OTHER COSTS

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and other costs of 2% of your balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features, such as superior investment performance or provision of better member services, justify higher fees and other costs.

You or your employer, as applicable, may be able to negotiate to pay lower fees¹¹. Ask your fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more or see the impact of the fees based on your own circumstances, the **Australian Securities and Investment Commission (ASIC)** Moneysmart website (moneysmart.gov.au) has a superannuation calculator to help you check out different fee options.

This section shows the fees and costs you may be charged. These fees and other costs may be deducted from your money, from the returns on your investment or from the assets of the superannuation entity as a whole.

Other fees, such as activity fees and advice fees for personal advice, may also be charged, but these will depend on the nature of the activity, or advice chosen by you. Entry and exit fees cannot be charged.

Taxes are set out in another part of this document.

You should read all the information about fees and other costs because it is important to understand their impact on your investment. Additional information on the fees and costs associated with all the investment options can be found in the *Fees and other costs* fact sheet at activesuper.com.au or from Member Care.

11. To help you compare different superannuation products, the Trustee is required by law to provide this statement in a PDS. It is important to note that Active Super does not charge contribution fees and the management costs cannot be negotiated.

ADDITIONAL EXPLANATION OF FEES AND COSTS

Financial planning fee (advice fee)

If you consult a financial planner¹⁸, Active Super will charge a direct fee for some financial planning services. It's important to note that not all financial advice will incur a fee and in many cases there may be no charge. Whether or not a fee applies depends on the scope of the financial advice you require. Your financial planner will discuss any fee fees payable when meeting with you and, if a fee is applicable, will advise you of the fee and seek your agreement before proceeding with the advice.

RISK AND DIVERSIFICATION

Superannuation, like any type of investment, is not without risk. Before choosing an investment, you should look at how the types of risk may affect your investment.

TYPES OF RISK	
Investment	While the risk of fluctuation in an investment can be managed and minimised, it cannot be completely eliminated.
Inflation	Where an investment may be performing well, rises in inflation may reduce the value of the return when compared with cost of living expenses.
Credit	Where we invest in debt securities or other debt instruments, these could be subject to default risk.
Liquidity	If an investment contains illiquid assets, the ability to sell on short notice is reduced and may even result in a loss or discount if it needs to be cashed out quickly.
Market	Any number of things can cause volatility within the market, e.g. changing economic conditions and technological advances.
Derivatives	The use of derivatives gives rise to the risk that there is an adverse movement in the asset or index underlying the derivative, that the derivative position is difficult or costly to reverse and that the parties do not perform their obligations under the contract.
Short selling	The risk that the price of a security increases so that the price that a security is purchased for is greater than the price that the security was sold for.
Superannuation law	Ongoing changes to superannuation law may change the way you can contribute to super and access your investment.
Product	In striving to provide quality and diversity in the product to benefit all members, changes may not always be suitable for your particular needs. Investment returns can be nil or even negative from time to time.

MORE INFORMATION

For more information on managing risk you should read the important information in the *Risk and diversification* fact sheet. This fact sheet is available at activesuper.com.au/PDS or from Member Care on 1300 547 873. The material relating to risk and diversification may change between the time you read this Statement and the day you sign the application form.

STANDARD RISK MEASURE

The investment options offered in the Active Super Account-Based Pension Plan vary in terms of their risk profile. To help you to compare the risk profiles of investment options the superannuation industry has developed the Standard Risk Measure (SRM). Under the SRM, Active Super has allocated each investment option a Risk Band (which can range from 1 to 7) and a corresponding Risk Label (which can range from 'Very Low' to 'Very High'). The Risk Band and Risk Label are based on the estimated frequency of the investment option achieving a negative return over a 20-year period.

For more information on the Standard Risk Measure and how Active Super has applied the SRM to its own investment options, please refer to the *Risk and diversification* fact sheet at activesuper.com.au/PDS

TAXATION

Taxation rules that apply to superannuation can be complicated. The following overview of the tax treatment of super represents the Trustee's understanding of taxation law as at the date of this PDS. You should seek professional taxation advice to understand the impact of tax upon your superannuation.

TAXATION ON AMOUNTS ROLLED IN AND PAYMENTS MADE FROM THE ACTIVE SUPER ACCOUNT-BASED PENSION PLAN

As the Trustee is required to pay the taxes referred to below, it deducts these amounts from your individual account balance.

Monies rolled in

Generally, monies rolled in from within the superannuation system are not taxed until you withdraw them as a benefit. Tax rates that apply when you withdraw a benefit are set out in the *Taxation* fact sheet at activesuper.com.au/PDS or from Member Care on 1300 547 873.

Tax on superannuation lump sum payments

There may be tax payable when you make a lump sum withdrawal or a withdrawal from a non-taxed source. These payments are subject to different tax rates, depending on your age, the amount withdrawn and the components withdrawn.

Details of the current tax treatment of the components of a lump sum superannuation payment are contained in the table within the *Taxation* fact sheet.

The Medicare levy may also be payable on some of these amounts.

Tax on pension payments (PAYG)

Your pension payments are assessed as income for income tax purposes and are taxed on a pay as you go (PAYG) basis. Accordingly, the assessable amount of any payment is subject to income tax and the Plan will make tax instalment deductions on your behalf if required.

Your income tax liability will be affected by any one or more of the following:

- Offsets such as the spouse and/or zone offset.
- The 15% pension offset.
- The income tax-free threshold.
- A tax-free component.
- If you are age 60 or over you will pay no tax on your pension from the Plan.
- Seniors and Pensioners Tax Offset (SAPTO).
- Other taxes and levies.

Further details on how tax affects your pension payments can be found in the *Taxation* fact sheet at activesuper.com.au/PDS or from Member Care on 1300 547 873.

TAX ON DEATH BENEFITS

Tax payable on death benefits depends on individual circumstances. We recommend that you seek advice from your financial planner about how the tax laws apply specifically to you and your spouse, estate and dependants.

WILL YOUR SOCIAL SECURITY BENEFITS BE AFFECTED?

Social security benefits depend on individual circumstances. You should seek advice from a financial planner about how your individual account and benefits in Active Super will affect your social security benefits or those of your spouse or dependants who may receive a benefit or pension after your death.

COMPONENT	AGE LESS THAN 55 ¹⁹	AGE 55 – 59 ¹⁹	AGE 60+
Tax-free component	Tax free	Tax free	Tax free
Taxable component	Taxed at 20%	Tax free up to the low rate cap amount ²⁰ with the balance taxed at 15%.	Tax free

The Medicare levy is also payable upon any benefit where tax is payable.

TAX FILE NUMBER (TFN) NOT SUPPLIED

You are not obliged to provide your tax file number. However, if you don't, there may be tax implications and other consequences. Please refer to the *Taxation* fact sheet at activesuper.com.au/PDS or contact Member Care on 1300 547 873.

MORE INFORMATION

You should read the important information in the *Taxation* fact sheet before making a decision. This fact sheet is available at activesuper.com.au/PDS or from Member Care on 1300 547 873. The material relating to taxation may change between the time you read this Statement and the day you sign the application form.

19. For those born after 30 June 1960, age 55 is replaced with your preservation age.

ANTI-MONEY LAUNDERING AND COUNTER-TERRORISM FINANCING

Active Super does not accept cash or make cash payments to third parties unless authorised to do so by the regulators, the Courts or the law.

To meet its legal obligations and to manage its money laundering and terrorism financing risks, Active Super must be reasonably satisfied that you are who you say you are, especially when you request any type of withdrawal from your account. This is to ensure that Active Super can be satisfied that you are the owner of your account and that the instruction the Trusete has received is valid.

At a minimum, Active Super must verify your full name, date of birth and residential address, especially when you request any type of withdrawal. Active Super may seek additional information to meet its obligations under the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006*.

Additionally, Active Super is required to monitor your transactions for the purpose of identifying transactions that appear unusual or suspicious having regard to money laundering or terrorism financing risk, and any transaction that appears to be suspicious within the terms of the legislation. Suspicious matters include suspicions about your identity, tax evasion, an offence against a Commonwealth, State or Territory law, proceeds of crime, money laundering, terrorism financing or transactions that have no apparent economic or lawful purpose. Active Super employs both human judgement and data analysis to identify such transactions.

Active Super reports any such suspicious matters plus any threshold transactions or international funds transfer instructions to the regulator.
